or call the Helpline at 732-303-7614

"What is a weed?"

A weed is a plant whose virtues have not
yet been discovered.

Ralph Waldo Emerson

PAR - "Plant A Row" for the hungry is a
people-helping-people, community-based
program, launched in 1992, designed
to assist in feeding the hungry in
their own community.

PAR is rooted in the tradition of gardeners
sharing a bountiful harvest with others.
Brochure available.

Garden Speaker Program

Our goal is to educate the public by providing exciting presentations designed to encourage everyone to enjoy some kind of gardening. Raising awareness in our community will keep Monmouth County a beautiful, environmentally "green" place to live.

Our speakers are Master Gardeners, trained by the Rutgers Cooperative Extension. Those giving slide/powerpoint or hands on demonstrations are knowledgeable in their subject and are anxious to share their expertise.

Our presentations encourage gardeners to explore new plants, garden designs, environmentally sensitive gardening and growing vegetables for home use and to help our local food banks.
